UX/UI Designer with 3+ years shipping B2B redesigns at The LYCRA Company. Lead design system evolution, rapid prototyping, and cross-functional collaboration to turn user research into measurable business outcomes. Master's in UX from MICA with an Industrial Design foundation from UC DAAP.

EXPERIENCE

UX/UI Designer

The LYCRA Company · Oct 2023 — Dec 2025

- Lead UX/UI designer for lycra.com, owning rapid prototyping, mockups, and facilitating cross-disciplinary design collaboration for upcoming site experiences.
- Led the complete redesign of two major B2B site experiences:
 - **Order Hang Tags** — Reduced task completion time by **42%** — Received **88%** positive user feedback.
 - **Test & Approve a Fabric** — Reduced task completion time by **25%**.
- Drive design system evolution in Figma, governing components, patterns, and standards used across the site and web development team.
- Translate user research and usability testing into design language, hierarchy, and interaction decisions.
- Collaborate cross-functionally with product, marketing, and engineering to align UX strategy with business goals.

Junior UX/UI Designer

The LYCRA Company · Jan 2023 — Oct 2023

- Produced rapid prototypes and mockups for the digital team, supporting roadmap delivery and early-stage feature exploration.
- Maintained and documented the design system, monitoring overall site functionality and design consistency.
- Partnered with cross-functional teams to align early-stage UX work with broader business objectives.

Freelance UX/UI Designer

Independent · Jan 2022 — Dec 2022

- Redesigned a Cincinnati allergy & asthma clinic website, increasing site engagement by **30%** within six months.
- Additional client work spanning information architecture and responsive web design.

EDUCATION

Master's, User Experience Design

Maryland Institute College of Art (MICA) · Class of 2022

Bachelor's, Industrial Design

University of Cincinnati (DAAP) · Class of 2020

- **Two years of work experience across five co-ops:**
Vorbeck Materials, Ethicon (Johnson & Johnson), University of Toronto, and Nottingham Spirk.
